

Wireware Storage Solutions

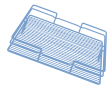

Best Service. Best Value. Best Advice.

SELECTION Products

When planning your new kitchen, the functionality and efficiency of your kitchen is as important as its overall design and colour scheme.

The size of your household, your individual lifestyle and total storage needs are essential factors that need to be considered.

Preparation, cooking, storing and cleaning are just some of the different activities which take place in your household daily. Careful consideration of storage solutions in the early stages of planning will ensure that you get the very best use of the space available in your kitchen.

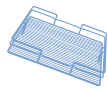

Storage Solutions

Wireware Systems

Maximise your storage space and increase workspace efficiency with wireware influenced by European designer quality. Lincoln Sentry Wireware is an exclusive range of basket and storage systems, designed not only for functionality but are also decorative.

WIREWARE SYSTEMS Accessories

This range of white wireware is the most affordable in the entire wireware offer of products. Economically priced and suitable for everyday use. The high quality powder coat is durable and very easy to clean.

Lincoln Sentry's range of side mounted and under sink roll outs are ideal for sink cupboard applications where space is limited. They are available in two practical sizes. The Half Swivel Round Basket is suitable for a blind corner application and is easily accessible as it opens with a hinged door. The White Roll Out Basket is an ideal addition to a base mounted cupboard as a storage idea for food provisions or vegetables.

WIREWARE SYSTEMS Accessories

9

There are limitless opportunities to apply Lincoln Sentry's range of accessories to suit the amount of wall space your kitchen has available. Straight lines and 90° corners are easily used.

With these accessories you are able to have your everyday items within easy reach, without your kitchen benchtop becoming cluttered. Giving you access to valuable preparation space.

By hanging quality wireware on your wall or splashback every item has a specific place, making your kitchen area more functional.

How do these accessories fit together?

The chrome tubing can be used over a distance of 1.2 meters or the length of your wall. The chrome tubing is easily joined by the chrome tube holder for longer distances.

The chrome tube holder set allows each end of the tube to be neatly finished. The chrome elbow will enable you to successfully navigate a 90° corner with ease.

Chrome hanging hooks are used to hang items off the chrome tubing such as utensils or display items.

A great way to add colour and organisation to your kitchen is to use the spice rack set. There are eight bottles to each set which hang from the chrome tubing fixed to your wall or splashback.

Lincoln Sentry chrome tubing system can be combined with many of the accessories shown on page 10 of this brochure.

Chrome Tube ∨
